01 – WHAT AI SAYS WHEN YOUR CUSTOMER ASKS

Two of four AI engines leave Harbourside out of the answer

We asked the four main AI engines the question your customers ask. ChatGPT and Claude recommend three competitors and do not name you.

> **Which physio clinics near Tanjong Pagar are open on Sundays?**

asked 2026-03-02 09:14 SGT · fresh session, no login · location: Singapore

02 – YOUR AI VISIBILITY

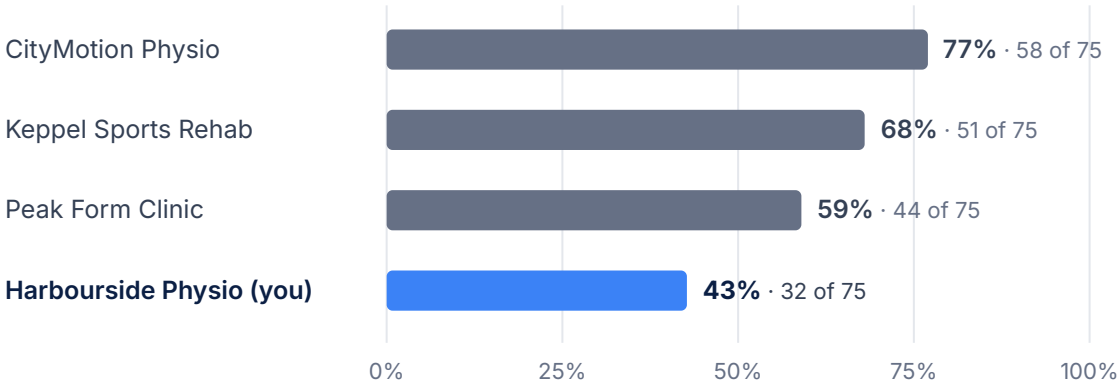

AI mentions Harbourside in 32 of 75 answers – three competitors appear more often

43%

Mention rate · 32 of 75 successful AI responses

A customer who asks AI about physio near Tanjong Pagar sees CityMotion Physio in three answers out of four. They see Harbourside in fewer than half. Every answer that leaves you out sends that customer to a competitor.

CityMotion Physio appears 26 more times than Harbourside

Share of 75 successful AI responses that name each clinic. 20 customer questions × 4 engines = 80 prompts; 5 returned no usable answer. Illustrative data.

ChatGPT names you least often

ENGINE	YOU	SHARE	LEADER
ChatGPT	6 of 19		15 of 19
Gemini	9 of 19		14 of 19
Claude	8 of 18		14 of 18
Perplexity	9 of 19		15 of 19

Leader = CityMotion Physio. Illustrative data.

WHAT THIS MEANS

The gap is widest on ChatGPT: 6 of 19 answers name you, 15 of 19 name CityMotion Physio.

When AI does name you, it names you third or later in 23 of 32 answers.

Pages 3 and 4 explain why: wrong facts and missing sources.

03 – WHAT AI GETS WRONG ABOUT YOU

AI repeats three facts about Harbourside that are wrong

Each error below appeared in at least two answers. We checked every claim against your own records and public listings.

Error 1 Sunday opening hours

ChatGPT · Gemini · 9 answers

WHAT AI SAID

"Harbourside Physio is closed on Sundays."

VERIFIED INFORMATION

Open Sunday 9:00–13:00 since January 2025.

LIKELY SOURCE

ACTION

Set Sunday hours on Google Business Profile. Fix ranked first on page 5.

Error 2 Size of the team

Claude · ChatGPT · 4 answers

WHAT AI SAID

"A small practice with two physiotherapists."

VERIFIED INFORMATION

Six registered physiotherapists, two with sports rehab specialisms.

LIKELY SOURCE

ACTION

Publish a team page that names each physiotherapist and their registration.

Error 3 Clinic address

Perplexity · 3 answers

WHAT AI SAID

"Located on Neil Road, a short walk from Outram Park."

VERIFIED INFORMATION

Wallich Street since March 2023. Nearest MRT: Tanjong Pagar.

LIKELY SOURCE

Red marks only the incorrect claim. Answer counts are out of 75 successful AI responses. Illustrative data.

04 – WHO AI TRUSTS INSTEAD

AI cites four sources more than your website – you are missing from two of them

AI engines build answers from sources they trust. Your competitors appear in all four of the most-cited sources. Your own website was cited 6 times.

SOURCE	TIMES CITED	COMPETITORS PRESENT	ARE YOU REPRESENTED?
Google Business Profile google.com/maps	41	A · B · C	Partly Sunday hours missing
Healthhub directory healthhub.sg	23	A · B	Not listed
The Straits Times feature, 2022 straitstimes.com	17	A · C	Outdated Team size wrong
Reddit thread on Sunday physio reddit.com/r/singapore	14	A · B · C	Not listed
Clinic review round-up blog sgclinicguide.example	9	B · C	Not listed
Your website harboursidephysio.example	6	–	Yes No Sunday hours or FAQ

Citations counted across 75 successful AI responses; one answer can cite several sources. A = CityMotion Physio, B = Keppel Sports Rehab, C = Peak Form Clinic. Illustrative data.

Why this matters

AI repeats what these sources say. If a source omits you, AI omits you. If a source is out of date, AI quotes the old fact as current.

BIGGEST GAP

Healthhub is the second most-cited source. CityMotion Physio and Keppel Sports Rehab are listed. Harbourside is not. A free listing closes this gap.

05 – THREE FIXES, RANKED

Correct your Sunday hours first – it changes nine answers

We ranked each fix by how many answers it affects and how quickly you can make it. Start at the top.

1

DO NOW

Set Sunday hours on Google Business Profile

ISSUE — `ChatGPT` and `Gemini` tell customers you are closed on Sundays.

EVIDENCE — 9 of 75 answers. Google Business Profile is the most-cited source, with 41 citations.

WHY IT MATTERS — Sunday is when weekend athletes look for appointments. A customer told you are closed books elsewhere.

WHAT TO DO — **Add Sunday 9:00–13:00 to your profile. Add the same hours to your website footer.**

Effort 15 minutes **Owner** Clinic manager **Visible in AI** 1–3 weeks

2

NEXT

Add an FAQ page that answers six customer questions

ISSUE — Your website is cited 6 times. It does not answer the questions customers ask AI.

EVIDENCE — Competitor websites answer hours, pricing, insurance and team questions directly. Yours answers none.

WHY IT MATTERS — AI quotes pages that state facts in plain sentences. A clear FAQ gives AI a source it can trust.

WHAT TO DO — **Publish one page with six answers: hours, address, team, conditions treated, prices, insurance.**

Effort 1 day **Owner** answeReady drafts, you approve **Visible in AI** 3–6 weeks

3

MONITOR

Re-run the snapshot in 30 days

ISSUE — AI engines update at different speeds. One check does not show whether a fix worked.

EVIDENCE — Today's baseline: 32 of 75 answers, 3 errors, missing from 3 of 5 external sources.

WHY IT MATTERS — You see which fixes moved your mention rate and which errors remain.

WHAT TO DO — **Ask the same 20 questions on the same 4 engines on 3 April 2026. Compare against this report.**

Effort None for you **Owner** answeReady **Date** 3 April 2026

06 – WHAT HAPPENS NEXT

We fix what AI gets wrong, then measure again in 30 days

The answeReady Fix service makes the changes on this report for you. You approve each change. We show you what moved.

Week 1

Correct the facts

We fix hours, address and team details on Google Business Profile and your website.

Weeks 2–3

Publish answers

We write your FAQ page. You approve it before it goes live.

Weeks 3–4

Fill source gaps

We list you on Healthhub and correct the directories AI cites.

Day 30

Measure again

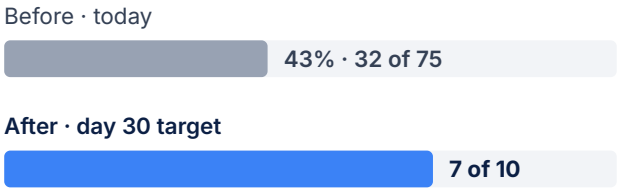

Same 20 questions, same 4 engines. You get a before-and-after report.

What a fix can deliver

In a comparable clinic, the same fixes took the brand from fewer than half of relevant answers to 7 of 10 within 30 days.

Illustrative data. Results depend on how quickly sources and engines update.

HOW WE MEASURED

20 questions written from real customer searches, asked on ChatGPT, Gemini, Claude and Perplexity between 2 and 3 March 2026. Each question was asked in a fresh session from Singapore. 75 of 80 prompts returned a usable answer. We recorded every brand named, every source cited and every factual claim about you.

Reply to book a 20-minute call. We start the week you approve.

Be ready when customers ask AI.
